Greetings from URI Health Services,

At URI Health Services, we are dedicated to your health and wellbeing. With the recent updates in University cancellations and distance learning, we wanted to remind our students that we are open and looking forward to caring for our students during this challenging time. In an effort to protect our community from the spread of COVID-19, all students must call Health Services at (401) 874-2246 prior to coming in for an appointment. A URI Health Services clinician will speak to you by phone first and determine how we can best address your needs.

Even if you are not currently on campus, please reach out to us so that we can assist you with your health care. This might include telephone advice, prescription refills, and virtual visits with one of our registered nurses or providers. Please call us at (401) 874-2246 or login to the Patient Portal to set up a virtual appointment so that we can assist you.

In health,

Dr. Christopher Nasin
